---

**Executive Summary**

A dedicated servant leader with a proven track record of fostering strong relationships between organizations and partners. Innovative, goal-oriented, and team-focused with executive experience in diverse clinical and health care operations, quality improvement, and staff development.

**Summary of Qualifications**

- **Dynamic leader** with over 15 years of experience in organizational management, excelling in employee development and motivation.
- Expertise in **workgroup facilitation**, program development, implementation, measurement, and outcomes management.
- Proficient in creating and executing **comprehensive community engagement strategies** aligned with organizational goals and mission.
- **Lead-by-example** approach, building trust and fostering a positive culture through transparency and responsiveness.
- Highly effective in **leadership, resource management, data analysis, and project coordination**, with a passion for achieving transformative outcomes.

**Employment History**

**The Florida State University (FSU)**, College of Medicine, Division of Research and Graduate Programs, Network for Clinical Research, Training and Community Engagement (NCRT-CE), and Department of Behavioral Sciences and Social Medicine. Tallahassee, Florida

Director and Senior Research Associate (responsible for 9 employees)

**June 2022 – present**

- Oversees the consultation and services of clinical and translational research and community engagement activities, including administrative and technical aspects, for the College of Medicine as well as the translational research activities associated with the University of Florida–Florida State University Clinical and Translational Science Award (CTSA)
- Directs NCRT-CE's clinical and community-engaged, community-based participatory research services and provides consultation to faculty on appropriate and diverse funding opportunities. Services include research navigation, feasibility assessments, connecting faculty with the community, research protocol and Institutional Review Board (IRB) application review and development, IRB management and mentoring (academic and hospital IRBs), recruitment services, group and individual training, project management, study closeouts and dissemination of findings
- Leads the design and development of FSU Health's research volunteer registry.
- Oversees the administration of *CITI Program Human Subjects Protections and Good Clinical Practice Training* for the College of Medicine faculty, staff, and medical students, and the administration of *REDCap* for FSU
- Responsible for maintenance and expansion of clinical and translational research training and education activities with interdisciplinary research collaborators, community partners, and FSU colleges, including other units across FSU engaged in translational research activities
- Responsible for developing and executing strategies for engaging community partners at the College of Medicine and under the CTSA. Serves as liaison with community partners, nonprofit agencies, and local city and county governments in the Panhandle region and provides direction and a programmatic approach to

supporting faculty to effectively impact and engage with key partners. Recent efforts include launching the *Learning Series for Community Leaders*, *FSU CE Leaders Steering Committee*, *CE Priority Area Workgroups*, and serving as a *Steering Committee Member for APLU IEP designation*

- Serves as lead for the Community Engagement Core of FSU's CTSA program, identifying and addressing health disparities among populations who are minority and underserved, including rural communities, through relevant research, community outreach, engagement, and education, and programs and partnerships
- Leads the FSU Community Engagement Leaders Committee in developing stakeholder groups for many underserved populations in Florida, and establishing relationships with government agencies, institutions, and community health partners

**Florida Department of Health (Department)**, Division of Public Health Statistics and Performance Management.

Tallahassee, Florida

Division Director (responsible for 186 employees)

**April 2021 – June 2022**

- Oversaw an annual operating budget of over \$50 million
- Oversaw Florida's Vital Statistics, Community Health Assessment, Performance Assessment Improvement, and Florida's Offices of Rural Health, Primary Care, and the Volunteer Health Care Provider Program
- Developed and maintained the Department of Health's performance management and continuous improvement system and its infrastructure for strategic planning and state and community health improvement planning
- Responsible for the planning, facilitation, and successful implementation of the Florida State Health Improvement Plan (SHIP), deploying a collaborative process to promote inclusion and foster shared ownership of an actionable plan that included performing assessments of the state's health, identifying priority health areas and defining goals and objectives for advancing the health of Floridians. The process culminated in January 2022 with the development of Florida's 2022-2026 SHIP, which serves as a five-year blueprint for driving efficient and targeted collective action to enhance public health in Florida.
- Oversaw infrastructure for public health statistics, health outcomes data, and research, including FLHealthCHARTS.gov
- Oversaw and maintained the Department of Health's integrated accreditation status by the national Public Health Accreditation Board (PHAB). Florida was the first state to seek accreditation as an integrated public health system, and to this date is the only state with this designation. Notable accomplishments:
  - On May 14, 2021, successfully awarded national accreditation status for the Bureau of Vital Statistics as a nationally accredited Vital Records and Health Statistics (VRHS) unit for the next five years through its VRHS Accreditation program (was only second in the country).
  - On March 9, 2022, successfully awarded national reaccreditation status as an Integrated Local Public Health Department System (all 67 County Health Departments).
- Oversaw registration and maintenance of Florida's vital records and statistics, and publication of the *Vital Statistics Annual Report* and *Vital Statistics Code Books*
- Responsible for the coordination of the annual update of the *Long Range Program Plan*, *Resource Manual*, *Physician Workforce Annual Report*, *Volunteer Health Care Provider Program Annual Report*, *State Health Improvement Plan Annual Progress Report*, *Agency Strategic Plan Annual Progress Report* and the *Performance Management and Quality Improvement Annual Progress Report*

**Florida Department of Health (Department)**, Bureau of Community Health Assessment, Division of Public Health Statistics and Performance Management. Tallahassee, Florida

Bureau Chief of Community Health Assessment (responsible for 25 employees)

**May 2019 – March 2021**

- Oversaw an annual operating budget of \$2 million
- Responsible for the daily operation of the Bureau of Community Health Assessment; engage in strategic visioning and planning activities to improve workflow in the bureau and increase staff efficiency; develop and mentor staff to achieve their full potential and empower them to carry out the Florida Department of Health mission, vision, values and Department's priorities

- Responsible for the successful direction of projects and initiatives supporting the development of the Agency Strategic Plan (including COVID-19 activities), the Florida State Health Assessment and State Health Improvement Plan, as well as the functions at the division and county levels; leading, facilitating or conducting internal or external stakeholder meetings focused on sharing ideas, enhancing performance and performance measurement techniques
- Defined and identified areas of quality and performance improvement across the agency; collaborated with agency, division, and county health department leaders, and their subject matter experts, to develop successful implementation plans; implemented and managed strategies for improvement across the agency
- Oversaw the Agency's Strategic Planning and Performance Tracking section, including supporting the Agency Performance Management Council (at the executive level) and associated program performance reviews for improvement initiatives; provided timely, actionable status updates to executive leadership and develop next steps for continuous organizational improvement; directed the enhancement and maintenance of the Department's performance management website, *Florida Health Performs*, and the *Health Improvement and Strategic Plan Tracking System*
- Oversaw the Public Health Reporting and Statistics section for the Department; responsible for the development of routine and ad hoc health statistics, related health status reports, and population estimates for the current year and five years in the future for public consumption; ensuring accurate, timely and audience-appropriate data dissemination through *FLHealthCHARTS.gov* and other public health reporting and decision support forums
- Collaborated with the Bureau of Vital Statistics through annual data checking; responsible for the *Vital Statistics Annual Report* and *Vital Statistics Code Books* to support Department analysis and research
- Assured the development and enhancement of complex, specialized reporting needs that require high-level data analysis and data management from a variety of existing data sources both internal and external to the Department
- Designated as the Division's Public Health Accreditation Board (PHAB) Accreditation Coordinator to help ensure successful engagement across the agency for reaccreditation; partnered with the Bureau of Performance Improvement and Assessment in achieving required standards in the PHAB accreditation process for the integrated public health system. Notable accomplishment: State Health Office reaccreditation awarded on September 1, 2020.
- Supported in the planning and development of Agency-level organizational activities surrounding performance management, quality improvement, and technical/analytical assistance
- Represented the Department in local, state or national meetings, conferences, workshops, and seminars
- Served as interim division director from September 2020 through April 2021.

**Agency for Health Care Administration, Bureau of Medicaid Quality, Division of Medicaid.** Tallahassee, Florida

**Bureau Chief of Medicaid Quality** (responsible for 35 employees)

**July 2018 – May 2019**

- Responsible for all administrative work planning, supervising, and coordinating programmatic activities for the Bureau of Medicaid Quality; directly managed highly trained professionals with varied professional and clinical backgrounds; supported the design of innovative quality enhancement initiatives in coordination with outside agencies and stakeholders to create system-wide improvements in outcomes
- Engaged in strategic planning activities to improve workflow in the bureau and increase staff efficiency, and engaged in strategic planning and visioning to improve quality of care in the Florida Statewide Medicaid Managed Care (SMMC) program
- Responsible for directing the appropriate planning, organization, execution, and coordination of clinical quality review and initiatives, quality and performance standard development and analysis, research and evaluation contracting, utilization management, and quality assurance monitoring and review of certain Medicaid services, to ensure consistency in program operation and conformity with goals and objectives of the Agency and state and federal laws, rules, regulations, and guidelines

- Oversaw the Florida Medicaid Comprehensive Quality Strategy, developed and implemented policies for quality and performance standards for Medicaid managed care plans, including receipt and analysis of Medicaid managed care performance measure data (HEDIS, CAHPS surveys, CMS Adult/Child Core Sets, etc.)
- Analyzed and classified risks as to frequency and financial impact of risk on the Agency and prepared operational and risk reports for management analysis
- Oversight of Agency certified contract managers in the Bureau of Medicaid Quality and ensuring accountability in all contracting functions and compliance with state and Agency contracting rules and policies
- Maintained up-to-date knowledge concerning the Florida Medicaid program, including pertinent Federal laws and regulations, state statutes and rules, the Florida Medicaid State Plan and its amendment processes, Medicaid managed care waivers and Medicaid program manuals
- Represented the Agency in local, state, or national meetings, conferences, workshops, and seminars

**Agency for Health Care Administration (AHCA), Bureau of Medicaid Data Analytics, Division of Medicaid.** Tallahassee, Florida

Administrator of Medicaid Data Solutions Unit (responsible for 9 employees)

**Sept. 2017 – July 2018**

- Provided consultative services to the Bureau Chief to assist in the monitoring and management of Florida's \$26 billion Medicaid Program
- Assisted the Chief in the development of Medicaid Managed Care performance monitoring tools, budget projections, and cost-based rates for the Program
- Supervised the use of predictive data analytics and data mining to identify fraud and error before payments are made, and encouraged the use of emerging data sources to promote targets for intervention, identify best practices, and maximize efficiencies
- Led the *Data Solutions Unit* of full-time employees and unpaid interns on which all Bureaus and the Agency depend for information regarding budget and payment issues
- Supported Senior Management in policy decision-making via data modeling and sensitivity analysis
- Supervised the data exchange with internal and external entities, including the federal government, state agencies, contractors, and universities; worked closely with the actuary Milliman to help set capitation rates
- Developed and executed strategic planning activities to implement the goals, objectives, and priorities of the Medicaid Program
- Advised the Strategic Enterprise Advisory Services (SEAS) Vendor, The North Highland, and the AHCA Medicaid Enterprise Systems (MES) Procurement team on Agency-wide analytical needs and assisted in formulating deliverables in the transition from a singular to a modular platform MES
- Responsible for establishing and maintaining quality control and productivity tracking processes to ensure accuracy and efficiency of work

**Mount Sinai Medical Center, Performance Improvement, Miami Beach, Florida**

Assistant Director of Quality and Performance Improvement (responsible for 9 employees)

**June 2017 – Sept. 2017**

- Assisted the Director of Quality in coordination, management, and reporting quality monitoring and performance activities in a large private independent not-for-profit teaching hospital with over 670 beds
- Project Leader and Data Administrator for the Florida Hospital Association (FHA) - Hospital Improvement Innovation Network (HIIN)
- Directed the participation and monitored the quality of data submission for multiple clinical databases; Society of Thoracic Surgeons (STS), National Cardiovascular Data Registry (NCDR), and scholarly studies
- Oversaw the selection of cases for quality review and physician education, and organized/facilitated all QI meetings with Columbia University
- Facilitated the development of a plan and implemented new tools to restructure the Peer Review process for a more robust, efficient and transparent process
- Actively supported and participated in quality, process improvement, and organizational initiatives for the hospital; assisted in Joint Commission readiness activities

- Led continuous improvements through lessons learned and other initiatives to deliver operational efficiencies and enhanced compliance standards throughout the hospital and satellite facilities
- Established and maintained an internal reporting system based on performance indicators
- Conducted education and communicated with employees regarding policy changes and regulatory requirements
- Collaborated with the Office of Compliance and Office of Research to monitor internal and external IRB submissions/applications

**Mount Sinai Medical Center, Performance Improvement, Miami Beach, Florida**

Clinical Data Manager (responsible for 8 employees)

**2013 – May 2017**

- Supervised and managed the collection of data into STS Adult Cardiac Database, STS/ACC Transcatheter Valve Therapy (Transcatheter Aortic Valve Replacement and Mitral Valve Leaflet Clip), NCDR CathPCI, ICD, PVI, and ACTION Registries; submitted timely quarterly harvests to appropriate data warehouses
- Directed the screening, obtaining of informed consent, and performance of health and quality of life follow-ups of heart surgery patients for the *Medtronic, Inc. Product Surveillance Registry Study*
- Coordinated with Catheterization Lab Administrators, Health Information Management, Emergency Department, Operating Room, and physicians to ensure compliance with documentation
- Collaborated with Epic and IT Business Intelligence to incorporate clinical data into the Electronic Health Record and develop, validate reports
- Performed and reviewed statistical analyses for cardiology and internal medicine fellow/resident and physician research projects using the registries and other data sources; ran queries/analyses from databases for hospital and physician-level analytic reports and research
- Identified patient cases for quality review and physician education, and organized and facilitated discussion of the cases in Cardiac Surgery and Cardiovascular Mortality and Morbidity (Interventional, Electrophysiology, Peripheral) section meetings with Columbia University
- Collaborated with Pathology Administrators to reduce unnecessary blood product utilization and managed blood review in committee and peer reviews
- Facilitated and ensured proper adherence to HIPAA regulations and IRB protocols were met for clinical researchers undertaking clinical or scientific projects

**McKing Consulting and Florida Department of Health, Tallahassee, Florida**

Assistant ALS Surveillance Coordinator

**2010 – 2012**

**Project:** State-based Amyotrophic Lateral Sclerosis (ALS) Surveillance Project

- Led program advocacy efforts among ALS providers in Florida to increase disease reporting
- Coordinated communication between ALS providers and program stakeholders to increase disease reporting
- Conducted routine provider visits to stimulate reporting of new ALS cases
- Utilized a database to document and manage advocacy efforts and disease reports among Florida's ALS providers
- Attended provider meetings and conferences to educate ALS providers about the program and encourage their participation in the ALS surveillance program

**Education**

- Ph.D.**      **Sociology**, Florida State University, Tallahassee, 2012  
*Dissertation:* "Body Mass Index Trajectories and Health-Risk Behaviors: Transition to Adulthood"
- M.S.**      **Sociology**, Florida State University, Tallahassee, 2007  
*Thesis:* "Post-Secondary Educational Outcomes of Immigrant and Native Youth"

**B.A. International Affairs**, Florida State University, Tallahassee, 2003

*Magna Cum Laude*

**B.S. Sociology and Political Science**, Florida State University, Tallahassee, 2003

*Magna Cum Laude*

### Professional Training and Certification

Oct. 2023	Team Science Mini-Series. UF-FSU Clinical and Translational Science Award. Instructor Carla Wood, PhD CCC-SLP.
Oct. 2022	Clinical Research Project/Program Management – SOCRA (Society of Clinical Research Associates)
Jun. 2022	CITI (Collaborative Institutional Training Initiative at the Florida State University) Conflicts of Interest (exp. 06/26), Good Clinical Practice (U.S. FDA Focus – GCP for Clinical Trials with Investigational Drugs and Medical Devices (exp. 11/25), Human Subjects Research – FSU Faculty, Staff and Students-Biomedical/Clinical (exp. 07/25), GDPR: Top Noncompliance Risks and Mitigation Strategies (exp. 06/25), Artificial Intelligence (AI) and Human Subject Protections (exp. 06/25)
April 2020	Contact Tracing and Phone Interviewing – Florida Department of Health; Bureau of Epidemiology
Nov. 2019	Public Health Executive Leadership Program – University of South Florida
Aug. 2018	Lean Six Sigma Advanced Yellow Belt Certification – Florida Sterling Council
May 2017	Management Skills for Managers and Supervisors – Dale Carnegie

### Professional Affiliations and Leadership Roles

• Partners for the Advancement of Community Engaged Research Operations Committee	2024-present
○ CE Badge Workgroup Chair	
• Florida Research Development Alliance (FloRDA) Member	2023-present
• Association for Clinical and Translational Science Member	2022-present
• FSU Community Engagement Leaders Committee Lead	2022-present
• FSU CTSA Community Engagement Core Lead	2022-present
• College of Medicine, Center for Translational Behavioral Science Affiliate	2022-present
